

To Whom It May Concern:

I am writing to you to let you know how Air 1 radio serves me as a resident of my local community and the impact that a Low Power FM (LPFM) would have if it was given priority over current FM translator service.

Air 1 is my favorite radio station. It is also my teenage son's favorite station. It plays the music I love, keeps me up-to-date on current events in my community and around the country. It is also a positive influence for my community. It plays tasteful, non-offensive music that appeals to teenage and older audiences alike. Teenagers need all the positive influences that they can get, if Air 1 were to be displaced by an LPFM broadcaster providing other programming, it would mean that this positive influence would be taken away. I believe that the service Air 1 provides is good clean, positive programming, which helps offset all the tasteless and raunchy programming that appears on other radio stations. I also believe it is in the public's best interest to NOT let LPFM's take over and push out all ready existing local FM translators.

Thank you for you time,

Robert Ross
